

David Martins

UX, UI & Web Designer

In designing beautiful UI and supporting dev teams in building great experiences for your customers, I work to leverage your product for it to be ahead of the curb

2021

Time to reach further heights

Javascript

JS

Figma

Though sketches are not enough

- Jumped to **Figma** to learn another design and colaboration tool
- Reinforced my HTML + CSS chops and ventured in learning some **Javascript**

2020

Then there was the Web, UI, UX, and I was in for a ride

UX / UI Designer (7 years) @ Xperienz

- Personally introduced to Accessibility, Usability and Research based design
- Began designing with **Sketch**, delivering through **Zeplin** and prototyping with **Marvel**
- Learned **HTML + CSS**. Responsive layouts and touch first UI became my best buds

Some Projects I Worked on

Mostly under NDAs ⚠

Client **OpenSoft / Autoridade Tributária**

- The web UI for manually declaring the taxes over income to the portuguese state (IRS)

Client **GL Homes**

- Both a customer warranty system and a construction management system and apps

Client **Indra / A.P.P**

- An all encompassing logistics management system and apps for all sea ports in Portugal

Client **Life Extension**

- The web UI for a products and services management CMS

UX Training

UXLx One of the greatest UX events in Europe

- As part of the organizing team, I attended the UXLx conference yearly, learning the latest topics and techniques in UX design from the best professionals in the industry

2013

Illustrator

Ai

Photoshop

Ps

In the beginning, there were only visuals

Graphic Designer (2 years) @ Creativeland - Young Channel and @ Sportgrafics

- Consolidated skills in **Adobe's Suite** for print and motion graphics production
